

STOP FOOD WASTAGE

DAV Centenary Public School
Paschim Enclave, Rohtak Road
New Delhi-110087

November 07, 2012: DAV Centenary Public School, Paschim Enclave took the onus of safeguarding the health of the youth – the future of our country, by observing 'STOP FOOD WASTAGE : EAT HEALTHY' Campaign in its premises and around the neighbourhood. The campaign was one of its kind and a pioneer step in sensitizing the students about the plight of those starving thousands, who die of hunger every day.

An eye-opening and thought-provoking street play ('Nukkad-Natak') presentation by the students urged the public to instantly stop wastage of food around us. A special interactive session was also taken up with the students, explaining to them the benefits of balanced diet, healthy eating and secrets of a glowing skin.

The Principal Ms. Manju Malik urged the students and the teachers to be responsible citizens and always keep the poor and the deprived in mind.
