Every year, the school is able to achieve excellent Board Results. For this session too, the school will be taking various initiatives to ensure consistent preparation for the students for their best results. One of such initiatives is organising SPECIAL TEST – REGULAR & ADVANCED modes for students of Class XII, in last week of June. This test will include assessment of content already covered in school in April and May. (Detailed syllabus will be conveyed by subject teachers). The exam will carry Maximum Marks 40 and will be of duration 1 hour and 45 minutes.

Students can opt for REGULAR mode, if they feel their preparation is average or not so good. However, those students who aspire to score above 90% are advised to appear for ADVANCED mode of Special Test, as it will include more competency-based questions than REGULAR mode. Students can convey their choice of mode – REGULAR or ADVANCED on the day of exam itself.

DATESHEET OF SPECIAL TEST CLASS XII
