

**DAV CENTENARY PUBLIC SCHOOL, PASCHIM ENCLAVE**

**Circular No. DAVPEMN\2023-24\20**

Dear Parents,

The school takes utmost care of the health, wellness and safety of its students. However, injury and ill health can happen anytime, anywhere inspite of best precautions and care.

Although the school has a full time doctor and nurse to give immediate care and first aid to the ailing / injured students, sometimes further management and treatment may be necessary. Whenever required, a call will be received by you from the school. Kindly treat it as a priority and report to the school at the earliest. All your queries regarding the wellbeing of your ward will be answered in the school promptly by the concerned staff.

With a huge school strength, the number of students needing immediate care and attention is enormous. So, please refrain from insisting to talk to the child on the phone as it may be difficult for us to entertain this request.

Hoping for your whole hearted cooperation in this respect.

Dr. Anshu Asri

Medical officer
